

# Supporting Pupils with Speech, Language and Communication Needs

Woodfield Teaching School Alliance is offering this training for Teachers, Teaching Assistants and staff working in the Speech and Language Team

## Course Outline

This programme examines the challenges involved in supporting pupils with a wide range of speech, language and communication needs.

It helps participants to recognise the pattern of typical and non-typical communication development in children and young people, and this enables you

to support successful communication development of all children.

It also supports participants to reflect on their practice in the area of SLCN and to develop systems and procedures to have an impact on the learning and progression of their students.
